

THE JULIAN CENTER
2020 ANNUAL REPORT

FROM OUR PRESIDENT

The mission of The Julian Center is to empower survivors of domestic and sexual violence and end the generational cycle of violence. Together our donors, volunteers, and colleagues have been working towards that vision since 1975. Your involvement with The Julian Center plays a key role in the healing of our survivors and their families each day.

We are pleased to share with you our *2020 Annual Report to the Community*. While 2020 was a challenging year, this report celebrates the donors, volunteers, and colleagues that worked hard to bring positive and memorable change to our community. These individuals allowed us to continue delivering upon our mission during an incredibly difficult and unprecedented time. We remain humbled by the unwavering generosity and support of this community.

As we look forward to the remainder of 2021 and find our new, post-pandemic normal, we remain focused on the healing of our survivors and their families. This last year has certainly changed how we go about our lives but rest assured that The Julian Center has continued the work necessary to empower survivors and end the generational cycle of violence. May we all have the opportunity to feel safe in our families, in our homes, in our communities, and in our world.

Thank you for supporting the work of The Julian Center.

Sincerely,

Jeff Brown, President/CEO

PARTNER SPOTLIGHT: **THE KROGER COMPANY**

The Julian Center is proud to partner each year with the Kroger Company to help provide meals to our survivors and their families. The *Kroger Café*, within the Shelter, provided over 41,000 meals during 2020. The partnership between The Kroger Company and The Julian Center has spanned decades with volunteer leadership and financial support. Jeff Brown, President and CEO of The Julian Center explains, “The support of The Kroger Company helps us to ensure the safety and security of our survivors and their families.” Access to three full meals each day is deeply important to the health of all individuals and assures survivors and their families that their basic needs are being met, while they focus on the programming necessary to continue their journey of healing. Food security is a prevalent issue for those impacted by domestic and sexual violence and something that The Kroger Company has been working against for many years.

The Kroger Company Foundation was established in 1987 with a vision of feeding the human spirit by ending hunger, providing food security, and bringing balanced meals to families. Over 69 million pounds of wholesome, nutritious meat, produce, eggs and dairy have been distributed to local food bank partners.

PARTNER SPOTLIGHT: **ALPHA CHI OMEGA**

The Butler University chapter of Alpha Chi Omega has been partnering with The Julian Center for 20 years now as they work towards their national philanthropy's goal of raising awareness about domestic violence. Alpha Chi Omega adopted their national philanthropy, Domestic Violence Awareness, in 1992. Not only are these women raising funds throughout the year, but they are volunteering and donating their time and talent to The Julian Center. Between volunteering in our after school programs, working with residents on their resumes, and even starting a weekly dance class at the shelter, these women are truly dedicated to empowering survivors. We are humbled by their readiness to jump in when volunteering and their dedication to planning countless fundraising and awareness events on Butler's campus each year. To see each new class of women equally as excited to join us at The Julian Center shows the organization's dedication to teaching their members about the importance of what we do.
